

Certificate in Virtual World Teaching

SESSION III – PART 2

PRESENTED BY
CORESL – HKPOLYU IN SECOND LIFE
2010.07.13

ReactionGrid

- What is ReactionGrid ?
 - **Virtual World Hosting & Development**
ReactionGrid Inc. hosts and develops virtual worlds providing a stable platform - **OpenSim**, similar to Second Life, for others to build upon-you just innovate, and help handling the behind the scenes stuff.
- Why ReactionGrid ?
 - This gives a **total security and ownership** of the system even allow installing web and desktop applications to work with our own worldb and desktop applications to work with our own world

ReactionGrid
